

# Battery Drill & Oscillating Saw System

## Wire and Pin Drill System

- 1) 4mm cannulate design, the maximal diameter of drill bit can be 4.5mm
- 2) High quality material, resisting high pressure
- 3) Power supply of the electric drill and saw is a rechargeable battery and the battery and charger is separated when used, which is safety, reliable and easy-to-take.
- 4) It can increase operation efficiency and precision and reduce operation time and patients pains.
- 5) Professional bottom cover design.

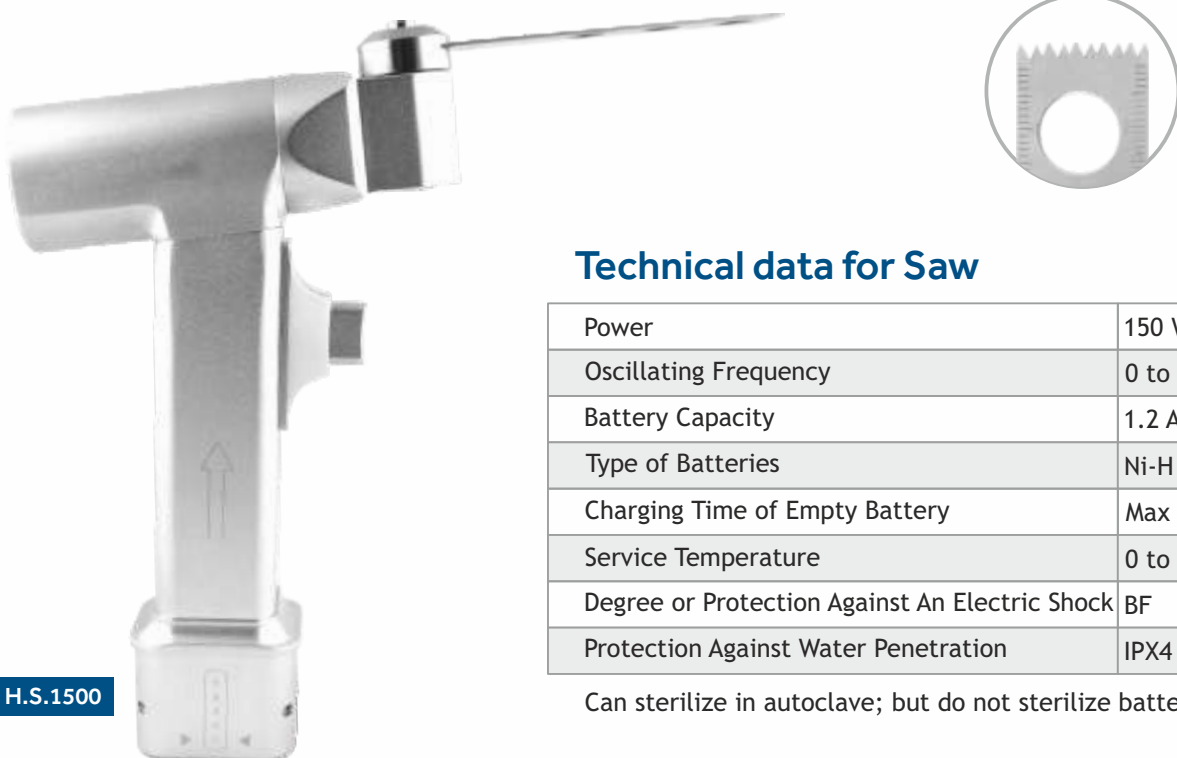

### Technical data for Drills

Clockwise/Counter - Clockwise Operation	
Continuous Speed Regulation	0 to 800 r.p.m
Cannulation	4mm dia
Operating Voltage	12V DC
Battery Capacity	1.2 Ah
Type of Batteries	Ni-H
Charging Time of Empty Battery	Max 45 Min
Service Temperature	0 to +50° C
Degree or Protection Against An Electric Shock	BF
Protection Against Water Penetration	IPX4

Can sterilize in autoclave; but do not sterilize batteries and charger.

## Oscillating Saw System

- 1) It can reduce cutting resistance and improve cutting quality
- 2) High quality material, resisting high pressure
- 3) Power supply of the electric drill & saw is a rechargeable battery and the battery and charger is separated when used, which is safety, reliable and easy-to-take.
- 4) It can increase operation efficiency and precision and reduce operation time and patients pains.
- 5) Professional bottom cover design.

### Technical data for Saw

Power	150 W
Oscillating Frequency	0 to 12000 Osc/min
Battery Capacity	1.2 Ah
Type of Batteries	Ni-H
Charging Time of Empty Battery	Max 45 Min
Service Temperature	0 to +50 °C
Degree or Protection Against An Electric Shock	BF
Protection Against Water Penetration	IPX4

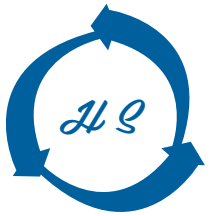

Can sterilize in autoclave; but do not sterilize batteries and charger.

## Replacement Chuck Key

Ref.No: H.S.1901

## Wire and Pin Attachment

Ref.No: H.S.1900

## DC 9.6 V Battery Charger Unit

Ref.No: H.S.1800

## Type of Batteries : Ni-H

Ref.No: H.S.1700

## Saw Blade

←80 mm x 25 mm x 1,17 mm →

Ref.No: H.S.200

## Saw Blade

←95 mm x 20 mm x 1,17 mm →

Ref.No: H.S.201

## Saw Blade

← 85 mm x 13 mm x 1,20 mm →

Ref.No: H.S.202

## Saw Blade

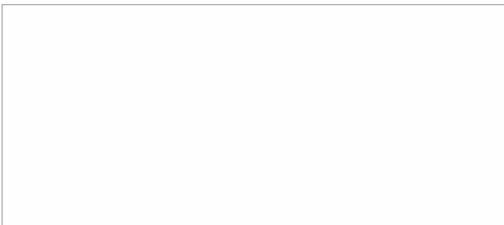

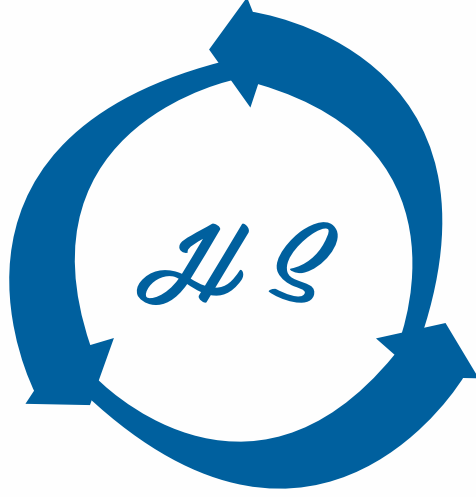

← 28 mm x 9 mm x 0,50 mm →

Ref.No: H.S.203

## Battery Transfer Channel

Ref.No: H.S.1750
